MONTANA COAL BOARD

BACKGROUND

JUNE 30, 1991

The Montana Coal Board was established in 1975 by the Montana Legislature to award grants to local governmental units and state agencies ". . . in meeting the local impact of coal development by enabling them to adequately provide governmental services and facilities which are needed as a direct consequence of coal development." (Sec. 90-6-205, MCA)

The Coal Board is composed of seven members, two of whom are residents of coal-impacted areas, two with expertise in education, and three from such fields as business, engineering, public administration, and planning.

Coal Board grants are funded by 6.65% of the Coal Severance Tax revenue paid into the local impact account.

The administrative staff of the Coal Board, assigned to the Department of Commerce for administrative purposes, is composed of an administrative officer, a project evaluator and legal counsel.

MONTANA COAL BOARD

AUDIT OBJECTIVES

JUNE 30, 1991

- (1) To conduct a financial-compliance audit of the Montana Coal Board grants for the period July 1, 1990 through June 30, 1991.
- (2) To determine if the grantees' financial statements present fairly the grant revenues and expenditures for the year ended June 30, 1991.
- (3) To review the Montana Coal Board and the grantees' compliance with applicable laws and regulations in administering the grants.
- (4) To review operating and financial controls and administration of the Montana Coal Board grants.

INDEPENDENT AUDITORS' REPORT

The Legislative Audit Committee of
the Montana State Legislature and
the Montana Coal Board

We have audited the accompanying statement of grant revenues and expenditures of the Montana Coal Board Grant No. 0303 Montana Department of Highways/Highway 314 Engineering Right-of-Way, and Utility Clearance for the year ended June 30, 1991. This statement of grant revenues and expenditures is the responsibility of the grantee's management. Our responsibility is to express an opinion on the statement of grant revenues and expenditures based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of grant revenues and expenditures is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the statement of grant revenues and expenditures. We believe that our audit provides a reasonable basis for our opinion.

The accompanying statement was prepared to present grant revenues and expenditures of the Montana Department of Highways pursuant to Grant No. 0303 between the Montana Department of Highways, grantee, and the Montana Coal Board, grantor, as described in Note 1, and is not intended to be a complete presentation of the Montana Department of Highway's revenues and expenditures.

In our opinion, the accompanying statement of grant revenues and expenditures presents fairly in all material respects, the grant revenues and expenditures of the Montana Department of Highways pursuant to Montana Coal Board Grant No. 0303 Montana Department of Highways, for the year ended June 30, 1991, in conformity with the basis of accounting described in Note 1.

NOTES TO THE FINANCIAL STATEMENT
FOR THE YEAR ENDED JUNE 30, 1991

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Basis of Accounting

The Department of Highways uses the modified accrual basis of accounting, as defined by generally accepted accounting principles. In applying the modified accrual basis, the department records:

Revenues when it receives cash or when receipts are measurable and available to pay current period liabilities.

Expenditures for valid obligations when the department incurs the related liability and it is measurable.

b. Basis of Presentation

The financial statement is prepared from the Statewide Budgeting and Accounting System without adjustment. Accounts are organized in funds according to state law. The department uses the following funds:

Governmental Funds

General - to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Fund - to account for proceeds of specific revenue sources legally restricted to expenditures for specific purposes.

Debt Service Fund - to account for accumulated resources for the payment of General Long-Term Debt principal and interest.

Capital Projects Fund - to account for resources used for purchase or construction of major capital facilities.

Proprietary Funds

Internal Service Fund - to account for providing goods or services to other agencies or departments on a cost-reimbursement basis.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Enterprise Fund - to account for operations (a) financed and operated in a manner similar to private business enterprises, where the Legislature intends that the department finance or recover costs primarily through user charges; or (b) where the Legislature has decided that periodic determination of revenues earned, expenses incurred or net income is appropriate.

Fiduciary Funds

Trust and Agency Funds - to account for assets held by the State in a trustee capacity or as an agent for individuals, private organizations, other governments or other funds. (Agency Funds, Expendable Trust Funds, Nonexpendable Trust Funds, Pension Trust Funds)

As noted above, this Coal Board Grant is accounted for through a Special Revenue Fund.

2. PURPOSE OF GRANT

This grant provides funds for engineering, right-of-way acquisition and utility clearance on the southerly 7.7 miles of Federal Aid Secondary Highway 314 located in Big Horn County, Montana. On October 23, 1990, the grant agreement was amended to allow remaining funds to be used for the construction of the highway project.

3. GRANT REQUIREMENTS

- (1) Submission of invoices, receipts, or certified contractors' quarterly reports. Submission of claims for services to Big Horn County in a like manner.
- (2) Establishment of a separate project account so that board and Big Horn County funds will not be mixed with Federal Aid Secondary (FAS) funding.
- (3) Submission of quarterly progress reports; quarterly financial status reports; and quarterly completion reports.
- (4) Submission of project completion report.

The grantee was in compliance with all significant grant requirements as of June 30, 1991.

INDEPENDENT AUDITORS' REPORT

The Legislative Audit Committee of
the Montana State Legislature and
the Montana Coal Board

We have audited the accompanying statement of grant revenues and expenditures of the Montana Coal Board Grant No. 0313 Rosebud Conservation District/Groundwater Monitoring Continuation for the year ended June 30, 1991. This statement of grant revenues and expenditures is the responsibility of the grantee's management. Our responsibility is to express an opinion on the statement of grant revenues and expenditures based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of grant revenues and expenditures is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the statement of grant revenues and expenditures. We believe that our audit provides a reasonable basis for our opinion.

The accompanying statement was prepared to present grant revenues and expenditures of the Rosebud Conservation District pursuant to Grant No. 0313 between the Rosebud Conservation District, grantee, and the Montana Coal Board, grantor, as described in Note 1, and is not intended to be a complete presentation of the Rosebud Conservation District's revenues and expenditures.

In our opinion, the accompanying statement of grant revenues and expenditures presents fairly in all material respects, the grant revenues and expenditures of the Rosebud Conservation District pursuant to Montana Coal Board Grant No. 0313 Rosebud Conservation District, for the year ended June 30, 1991, in conformity with the basis of accounting described in Note 1.

A fund is a separate accounting entity with a self-balancing set of accounts.

The grantee uses the following funds:

Governmental Funds

General - to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Fund - to account for proceeds of specific revenue sources legally restricted to expenditures for specific purposes.

Debt Service Fund - to account for accumulated resources for the payment of General Long-Term Debt principal and interest.

Capital Projects Fund - to account for resources used for purchase or construction of major capital facilities.

Proprietary Funds

Internal Service Fund - to account for providing goods or services to other agencies or departments on a cost-reimbursement basis.

INDEPENDENT AUDITORS' REPORT

The Legislative Audit Committee of
the Montana State Legislature and
the Montana Coal Board

We have audited the accompanying statement of grant revenues and expenditures of the Montana Coal Board Grant No. 0318 Ashland School District 32J/Playground Improvements and Equipment for the year ended June 30, 1991. This statement of grant revenues and expenditures is the responsibility of the grantee's management. Our responsibility is to express an opinion on the statement of grant revenues and expenditures based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of grant revenues and expenditures is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the statement of grant revenues and expenditures. We believe that our audit provides a reasonable basis for our opinion.

The accompanying statement was prepared to present grant revenues and expenditures of Ashland School District 32J pursuant to Grant No. 0318 between Ashland School District 32J, grantee, and the Montana Coal Board, grantor, as described in Note 1, and is not intended to be a complete presentation of Ashland School District 32J's revenues and expenditures.

In our opinion, the accompanying statement of grant revenues and expenditures presents fairly in all material respects, the grant revenues and expenditures of Ashland School District 32J pursuant to Montana Coal Board Grant No. 0318 Ashland School District 32J, for the year ended June 30, 1991, in conformity with the basis of accounting described in Note 1.

The financial statement has been prepared on the modified accrual basis of accounting, as defined by generally accepted accounting principles. In applying the modified accrual basis, the grantee records:

Revenues when it receives cash or when receipts are measurable and available to pay current period liabilities.

Expenditures for valid obligations when the department incurs the related liability and it is measurable.

b. Basis of Presentation - Fund Accounting

The grantee uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts.

The grantee uses the following funds:

Governmental Funds

General - to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Fund - to account for proceeds of specific revenue sources legally restricted to expenditures for specific purposes.

Debt Service Fund - to account for accumulated resources for the payment of General Long-Term Debt principal and interest.

Capital Projects Fund - to account for resources used for purchase or construction of major capital facilities.

Proprietary Funds

Internal Service Fund - to account for providing goods or services to other agencies or departments on a cost-reimbursement basis.

INDEPENDENT AUDITORS' REPORT

The Legislative Audit Committee of
the Montana State Legislature and
the Montana Coal Board

We have audited the accompanying statement of grant revenues and expenditures of the Montana Coal Board Grant No. 0335 Powder River County/Rural Fire Department Rescue Equipment for the year ended June 30, 1991. This statement of grant revenues and expenditures is the responsibility of the grantee's management. Our responsibility is to express an opinion on the statement of grant revenues and expenditures based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of grant revenues and expenditures is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the statement of grant revenues and expenditures. We believe that our audit provides a reasonable basis for our opinion.

The accompanying statement was prepared to present grant revenues and expenditures of Powder River County pursuant to Grant No. 0335 between Powder River County, grantee, and the Montana Coal Board, grantor, as described in Note 1, and is not intended to be a complete presentation of Powder River County's revenues and expenditures.

In our opinion, the accompanying statement of grant revenues and expenditures presents fairly in all material respects, the grant revenues and expenditures of Powder River County pursuant to Montana Coal Board Grant No. 0335 Powder River County for the year ended June 30, 1991, in conformity with the basis of accounting described in Note 1.

INDEPENDENT AUDITORS' REPORT ON PRIOR YEAR'S RECOMMENDATIONS

1. GRANT NO. 303, Highway 314 Engineering, Right-of-Way, and Utility Clearance

It was recommended that the Montana Coal Board contract with the Montana Department of Highways to allow the use of unexpended grant funds from this project towards construction of Highway 314.

The grant was amended on October 22, 1990, implementing this recommendation.

2. GRANT NO. 314, Eastern Coal Counties Task Force Law Enforcement

It was recommended that the grant revenues for this grant be accrued at the end of each fiscal year to properly match grant revenues and expenditures.

The grantee concurred with the recommendations and implemented it in FY 1991.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL
STRUCTURE-RELATED MATTERS NOTED IN A FINANCIAL
STATEMENT AUDIT CONDUCTED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

The Legislative Audit Committee of
the Montana State Legislature and
the Montana Coal Board

We have audited the financial statements of the various grantees of the Montana Coal Board for the year ended June 30, 1991, and have issued our reports thereon dated May 26, 1992.

We conducted our audits in accordance with generally accepted auditing standards and Government Auditing Standards issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

In planning and performing our audits of the financial statements of the various grantees of the Montana Coal Board for the year ended June 30, 1991, we considered their internal control structures in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

The various grantees and the Montana Coal Board are responsible for establishing and maintaining an internal control structure. In fulfilling this responsibility, estimates and judgments by administrative officials are required to assess the expected benefits and related costs of internal control structure policies and procedures. The objectives of an internal control structure are to provide the administrative officials with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with the administrative officials' authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Because of inherent limitations in any internal control structure, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of the structure to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the effectiveness of the design and operation of policies and procedures may deteriorate.

For the purposes of this report, we have classified the significant internal control structure policies and procedures in the following categories: Cash disbursements, cash receipts, payroll, and grants.

For all of the control categories listed above, we obtained an understanding of the design of the relevant policies and procedures and whether they have been placed in operation, and we assessed control risk.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a reportable condition in which the design or operation of one or more of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control structure and its operation that we consider to be material weaknesses as defined above.

This report is intended for the information of the Legislative Audit Committee of the Montana State Legislature and the Montana Coal Board. This is not intended to limit the distribution of this report, which is a matter of public record.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE
WITH APPLICABLE STATE AND FEDERAL LAWS AND REGULATIONS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS ISSUED BY THE GAO

The Legislative Audit Committee of
the Montana State Legislature and
the Montana Coal Board

We have audited the financial statements of the various grantees of the Montana Coal Board for the year ended June 30, 1991, and have issued our reports thereon dated May 26, 1992. We conducted our audits in accordance with generally accepted auditing standards and Government Auditing Standards issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

Compliance with laws, regulations, contracts, and grants applicable to the Montana Coal Board is the responsibility of the Montana Coal Board's and the grantees' management. As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we performed tests of the Montana Coal Board and the grantees' compliance with certain provisions of laws, regulations, contracts, and grants. However, it should be noted that our objective was not to provide an opinion on overall compliance with such provisions.

The results of our tests indicate that, with respect to the items tested, the Montana Coal Board and the grantees complied, in all material respects, with the provisions referred to in the preceding paragraph. With respect to items not tested, nothing came to our attention that caused us to believe that the Montana Coal Board and the grantees had not complied, in all material respects, with those provisions.

This report is intended for the information of the Legislative Audit Committee of the Montana State Legislature and the Montana Coal Board. This is not intended to limit the distribution of this report, which is a matter of public record.
